

What is it?

“Pacecar is an online reading tool, designed to help you read faster and with more focus. It masks the distracting elements on the page, giving you a reading window that follows your mouse.”

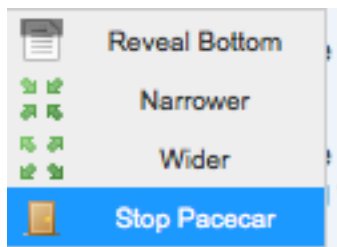

<http://pacecar.missingmethod.com/>

How do I use it?

Just drag the bookmarklet into your browser's bookmarks toolbar. When you want to read a page with Pacecar, click it!

You can make the reading mask narrower - Hold the Control key and click in the mask, then click on Narrower.

To turn it off - Double click in the Mask or Hold the Control key and click in the mask, then click on Stop Pacecar.

Currently, Pacecar only works with Firefox.
